

WATER QUALITY Copper

Total Copper, Cu ($\mu\text{g/L}$)

0.000 - 0.380
0.380 - 0.539
0.539 - 0.789
0.789 - 1.130
1.130 - 1.562
1.562 - 2.085
2.085 - 2.631
2.631 - 3.290
3.290 - 5.927

Sampling Site

- ▲ Water Quality Monitoring Agreement

Surface water quality data collected between 1985 and 2013 from 117 Water Quality Monitoring Agreement sites was compiled to create this contour map. Each coloured region of the map shows an estimated range for the water quality parameter, based on median values of the data. Contours were created by geographic information system software using an inverse distance weighting model.

Scale = 1:4,500,000
