

## Feature Codes - Public Water Supplies

Dept	Data Type	Status	Supply Type	Feature	Description	FCODE	Feature Type	Fill Colour	Fill Type	Border Colour	Border Type	Border Width	Symbol Colour	Symbol Type	Symbol Size
EN	WS	PR - Protected	SW	LB - Legal Boundary	Protected Surfacewater Legal Boundary - Area defined on a map which closely represents all or part of the catchment area for a water supply	ENWSPRSWLB	Area	Dark Blue	Trans 50%	Green	Solid	3			
				NO - Natural Drainage Area Outside Legal Boundary	Protected Surfacewater Natural Drainage Area Outside Legal Boundary - Additional area of the drainage basin (or catchment area) which is not included in the legal boundary	ENWSPRSWNO	Area	Med. Blue	Trans 50%	Green	Dashed	3			
				IN - Intake	Protected Surfacewater Intake - The point in a river, pond or stream at which source water is withdrawn	ENWSPRSWIN	Point						Black	Triangle	8
				DP - Diversion Pipeline	Protected Surfacewater Diversion Pipeline - Pipeline for the transfer of water within or between water supplies	ENWSPRSWDP	Line			Blue	Solid	3			
			GW	LB - Legal Boundary	Protected Groundwater Legal Boundary - Area defined on a map which closely represents all or part of the catchment area for a water supply	ENWSPRGWLB	Area	Dark Blue	Trans 50%	Green	Solid	3			
				Z1 - Zone 1	Protected Groundwater Zone 1 - Varied zones of protection in which specific activities are prohibited.	ENWSPRGWZ1	Area	Dark Blue	Trans 50%	Green	Solid	3			
				Z2 - Zone 2	Protected Groundwater Zone 2 - Varied zones of protection in which specific activities are prohibited.	ENWSPRGWZ2	Area	Dark Blue	Trans 50%	Green	Solid	3			
				Z3 - Zone 3	Protected Groundwater Zone 3 - Varied zones of protection in which specific activities are prohibited.	ENWSPRGWZ3	Area	Dark Blue	Trans 50%	Green	Solid	3			
				Z4 - Zone 4	Protected Groundwater Zone 4 - Varied zones of protection in which specific activities are prohibited.	ENWSPRGWZ4	Area	Dark Blue	Trans 50%	Green	Solid	3			
				WH - Wellhead	Protected Groundwater Wellhead - The portion of well casing near or above the surface	ENWSPRGWWH	Point						Black	Circle	8
				SP - Spring	Protected Groundwater Spring - A flow of groundwater that emerges naturally at the surface.	ENWSPRGWSP	Point						Black	Circle	8
		UP - Unprotected	SW	ND - Natural Drainage Area	Unprotected Surfacewater Natural Drainage Area - The entire catchment basin (or drainage area) which includes all areas of influence above the intake.	ENWSUPSWND	Area	Med. Blue	Trans 50%	Purple	Dashed	3			
				IN - Intake	Unprotected Surfacewater Intake - The point in a river, pond or stream at which source water is withdrawn	ENWSUPSWIN	Point						Black	Triangle	8
			GW	Z1 - Zone 1	Unprotected Groundwater Zone 1 - Varied zones of protection in which specific activities are prohibited.	ENWSUPGWZ1	Area	Med. Blue	Trans 50%	Purple	Solid	3			
				Z2 - Zone 2	Unprotected Groundwater Zone 2 - Varied zones of protection in which specific activities are prohibited.	ENWSUPGWZ2	Area	Med. Blue	Trans 50%	Purple	Solid	3			

## Feature Codes - Public Water Supplies

Dept	Data Type	Status	Supply Type	Feature	Description	FCODE	Feature Type	Fill Colour	Fill Type	Border Colour	Border Type	Border Width	Symbol Colour	Symbol Type	Symbol Size
				Z3 - Zone 3	Unprotected Groundwater Zone 3 - Varied zones of protection in which specific activities are prohibited.	ENWSUPGWZ3	Area	Med. Blue	Trans 50%	Purple	Solid	3			
				Z4 - Zone 4	Unprotected Groundwater Zone 4 - Varied zones of protection in which specific activities are prohibited.	ENWSUPGWZ4	Area	Med. Blue	Trans 50%	Purple	Solid	3			
				WH - Wellhead	Unprotected Groundwater Wellhead - The portion of well casing near or above the surface	ENWSUPGWWH	Point						Black	Circle	8
				SP - Spring	Unprotected Groundwater Spring - A flow of groundwater that emerges naturally at the surface.	ENWSUPGWSP	Point						Black	Circle	8
		IL - In ILUC Process	SW	LB - Legal Boundary	Proposed to ILUC Protected Surfacewater Legal Boundary - Area defined on a map which closely represents all or part of the catchment area for a water supply	ENWSILSWLB	Area	Red	Trans 50%	Red	Solid	3			
				NO - Natural Drainage Area Outside Legal Boundary	Proposed to ILUC Protected Surfacewater Natural Drainage Area Outside Legal Boundary - Additional area of the drainage basin (or catchment area) which is not included in the legal boundary	ENWSILSWNO	Area	Med. Red	Trans 50%	Red	Dashed	3			
				IN - Intake	Proposed to ILUC Protected Surfacewater Intake The point in a river, pond or stream at which source water is withdrawn	ENWSILSWIN	Point						Black	Triangle	8
				DP - Diversion Pipeline	Proposed to ILUC Protected Surfacewater Diversion Pipeline - Pipeline for the transfer of water within or between water supplies	ENWSILSWDP	Line			Red	Solid	3			
			GW	LB - Legal Boundary	Proposed to ILUC Protected Groundwater Legal Boundary - Area defined on a map which closely represents all or part of the catchment area for a water supply	ENWSILGWLB	Area	Red	Trans 50%	Red	Solid	3			
				Z1 - Zone 1	Proposed to ILUC Protected Groundwater Zone 1 - Varied zones of protection in which specific activities are prohibited.	ENWSILGWZ1	Area	Red	Trans 50%	Red	Solid	3			
				Z2 - Zone 2	Proposed to ILUC Protected Groundwater Zone 2 - Varied zones of protection in which specific activities are prohibited.	ENWSILGWZ2	Area	Red	Trans 50%	Red	Solid	3			
				Z3 - Zone 3	Proposed to ILUC Protected Groundwater Zone 3 - Varied zones of protection in which specific activities are prohibited.	ENWSILGWZ3	Area	Red	Trans 50%	Red	Solid	3			
				Z4 - Zone 4	Proposed to ILUC Protected Groundwater Zone 4 - Varied zones of protection in which specific activities are prohibited.	ENWSILGWZ4	Area	Red	Trans 50%	Red	Solid	3			
				WH - Wellhead	Proposed to ILUC Protected Groundwater Wellhead - The portion of well casing near or above the surface	ENWSILGWWH	Point						Black	Circle	8
				SP - Spring	Proposed to ILUC Protected Groundwater Spring A flow of groundwater that emerges naturally at the surface.	ENWSILGWSP	Point						Black	Circle	8

## Feature Codes - Public Water Supplies

Dept	Data Type	Status	Supply Type	Feature	Description	FCODE	Feature Type	Fill Colour	Fill Type	Border Colour	Border Type	Border Width	Symbol Colour	Symbol Type	Symbol Size
		PT - Potential	SW	ND - Natural Drainage Area	Potential Surfacewater Natural Drainage Area - The entire catchment basin (or drainage area) which includes all areas of influence above the intake.	ENWSPTSWND	Area	Cyan	Trans 50%	Yellow	Dashed	3			
				IN - Intake	Potential Surfacewater Intake - The point in a river, pond or stream at which source water is withdrawn	ENWSPTSWIN	Point						Black	Triangle	8
			GW	Z1 - Zone 1	Potential Groundwater Zone 1 - Varied zones of protection in which specific activities are prohibited.	ENWSPTGWZ1	Area	Cyan	Trans 50%	Yellow	Dashed	3			
				Z2 - Zone 2	Potential Groundwater Zone 2 - Varied zones of protection in which specific activities are prohibited.	ENWSPTGWZ2	Area	Cyan	Trans 50%	Yellow	Dashed				
				Z3 - Zone 3	Potential Groundwater Zone 3 - Varied zones of protection in which specific activities are prohibited.	ENWSPTGWZ3	Area	Cyan	Trans 50%	Yellow	Dashed				
				Z4 - Zone 4	Potential Groundwater Zone 4 - Varied zones of protection in which specific activities are prohibited.	ENWSPTGWZ4	Area	Cyan	Trans 50%	Yellow	Dashed				
				WH - Wellhead	Potential Groundwater Wellhead - The portion of well casing near or above the surface	ENWSPTGWWH	Point						Black	Circle	8
				SP - Spring	Potential Groundwater Spring - A flow of groundwater that emerges naturally at the surface.	ENWSPTGWSP	Point						Black	Circle	8
