

Planned Exploration Work for Prospecting, Geochemical Sampling and / or Ground-Based Geophysical Surveying

NOTE: To submit a plan of exploration activities not identified on this form (including, but not limited to, seismic surveys, line cutting, ground excavation, airborne surveys, fuel storage, use or preparation of access trails, use or preparation of fly camps, use or preparation of fuel caches), you must complete an application for **Exploration Approval Form** as per Section 5(4) of the **Mineral Act**.

Is Planned Exploration Work Within:

Labrador Inuit Lands (LIL)?

Work within Labrador Inuit Lands also requires a Work Plan Approval by the Nunatsiavut Government.

http://www.nr.gov.nl.ca/nr/forms/mines/work_plan_for_lil.pdf

Labrador Inuit Settlement Areas (LISA)?

Work within LISA requires Indigenous consultation. The Province is responsible for conducting Indigenous consultation but applicants may be encouraged to contact Aboriginal groups to further discuss their plans. Further information may be found on the Office of Indigenous Affairs and Reconciliation website:

<https://www.gov.nl.ca/exec/iar>

Labrador

Work within Labrador, outside of LIL and LISA, may also require Indigenous consultation and approval.

Glover Island Public Reserve?

A person shall not explore for minerals within the reserve without a permit issued by the Department of Environment and Conservation.

Middle Ridge Wildlife Reserve?

Work within the Reserve will require referral to the managing agency and may require approval by the Department of Environment and Conservation.

Little Grand Lake Wildlife Reserve?

Work within the Reserve will require referral to the managing agency and may require approval by the Department of Environment and Conservation.

Pursuant to subsection 5. (4) of the **Mineral Act**, notice is hereby given of our intentions to undertake mineral exploration. The information contained in this application is a complete and accurate summary of the exploration planned for this property.

Section A: Applicant Information

What is the name of the individual and / or company who will be conducting the work?

Address:

Phone number:

E-mail address:

Section B: Property Information

What is the name of the property?

NTS Map sheet(s):

Where is the property located?

Island (Newfoundland)

Labrador

Proposals to carry out exploration work may require Indigenous consultation and therefore **must not proceed until a letter of acceptance is received from the Mineral Lands Division. Any work in Labrador Inuit Lands must not proceed until an approved Work Plan from the Nunatsiavut Government is received.**

What is / are the commodity(ies) of interest on the property (e.g., Au, Ni, U, PGE's, Critical Minerals)?

Mineral licence(s) and / or land open for staking:

Licence holder(s):

Where a licence is not held by the applicant or is shared with another party, indicate the agreements or permissions in place. If land open to staking is being explored, a map and / or shape files showing the area of interest must be submitted with this form.

Section C: Prospecting

Start date:

End date:

Traditional "boot and hammer" prospecting:

Hand panning / sluicing:

Handheld / backpack geophysical survey:

Backpack drilling:

Small-scale channel sampling (no excavation):

Are you planning to apply for financial assistance (Prospectors Grant)?

Yes

No

If you answered "No", but you are interested in applying, please complete and submit the appropriate form to the Mineral Incentive Program.

Section D: Geochemical Survey

Start date:

End date:

Type of sample**Approx. number****Sub-contractor to be hired?**

Yes

No

Soils

Sub-contractor name:

Rock

Streams

Address:

Till

Lake bottom

Water

Contact:

Biogeochemical

Phone number:

Other: _____

E-mail:

Section E: Ground-Based Geophysical Survey

NOTE: An application for exploration approval form must be completed to approve any required **line cutting** or **if the proposed program is a seismic survey**

Start date:

End date:

Type

Approx. no. of kilometers

Sub-contractor to be hired? Yes No

EM-16

Sub-contractor name:

VLf-EM

Address:

Magnetics

Gravity

Section F: Acknowledgments and Signature

Complete and accurate information is important to avoid delays in the receipt of your Acceptance of Notification of Work letter. Please review and confirm the following:

I understand that this notification does not grant me, or anyone working with me, approval to conduct mineral exploration activities that require a mineral exploration approval from the Department of Industry, Energy and Technology.

I understand that the work proposed in this application must be carried out in compliance with the **Acceptance of Notification of Work Letter** and any other applicable policies, regulations or legislation.

I hereby certify that I have reviewed the completed **Notification of Work (for Prospecting, Geochemical Sampling and / or Ground-Based Geophysical Surveying) Form** and the information contained within is true and accurate to the best of my information, knowledge and belief.

Name: _____ Title / Position: _____ Date: _____

Under the authority of the **Access to Information and Protection of Privacy Act, 2015 (ATIPPA, 2015)**, personal information is collected in order to process, manage and issue the programs or services of the Department of Industry, Energy and Technology. Personal information is kept confidential as required by **ATIPPA, 2015**, but may be released under request in accordance with **ATIPPA, 2015**.
