**Re: New Federal Project Sign Format**

**Date: August 8, 2012**

---

The design of the federal project sign has been updated with a new background colour and Canada's Coat of Arms. A copy of the new *Project Sign Design and Installation Guide* is attached to help implement the signs at appropriate projects. Graphic design files are available upon request.

This signage applies to all funding and transfer programs managed by Infrastructure Canada, including the Gas Tax Fund. Please ensure that project signs for new contracts under federal programs comply with the attached guidelines.

If you have any questions, please contact Mr. Frank Huxter, P. Eng., Manager of Municipal Planning and Design Engineering, telephone number 729-0891.
