Department of Transportation and Works  
Transportation Branch

**Re: 7.0 FLAGPERSON**

The Department of Transportation and Works wishes to ensure that all parties understand that Section 7.6 WHERE TO STAND pertains to the location of the Flagperson at the beginning and end of the work zone. As in previous editions of the Traffic Control Manual these conditions do not apply to intermediary Flagpersons which may be required on a construction project due to local roadway conditions or hazards.

Thank you.
